Limitations and Future Directions

- Source Redundancy: All citations point to the same Wikipedia page, limiting diversity of perspectives and depth of evidence.
- Granularity: The answers lack quantitative metrics (e.g., sales figures, critical scores) that could substantiate ‘best’ or ‘most memorable’ claims.
- Future Work: Incorporate a broader set of sources (e.g., review aggregators, player surveys) and perform comparative analysis across multiple franchise entries to validate and enrich the current conclusions.
